ML Healthcare announces launch of FQHCmd website meeting the needs of Community Health Centers throughout the US

Cape Coral, FL – November 3, 2008 – ML Healthcare has announced the launch of a new website www.FQHCmd.com that was developed to help meet the physician shortage for Federally Qualified Health Centers throughout the US. FQHCmd allows FQHC's to become members, list their opportunities for free, to have a search done specifically for the facility throughout a network of physician related sites all working to fill any specific practice opportunity. Also, through FQHCmd the membership, any physician that is offered a contract for employment, a background, reference and National Practice Database check will be performed at no cost.

“I am proud to be a partner in FQHCMD as I know the frustrations of dealing with recruiters and candidates” “I will personally screen all candidates who present to FQHCMD to ensure that each site receives a top quality candidate who is interested in providing compassionate care to those who we serve in the Community Health Center family” , states Joe Lyszak, CEO of Community Health Services of Fremont, Ohio and co-founder of FQHCmd.

With a shortage of physicians in the United States reaching by some estimates over 200,000, sourcing, recruiting and retaining good physicians have become increasingly more difficult and more expensive. FQHCmd only gets paid if a facility is successful in hiring a candidate and the the fee is 50% of industry standard rates.

“We are the only organization that specifically is designed to help Community Health Centers in the US. We went through an extensive trial period and have had so much support from other FQHC administrators and State organizations. The time has come to insure that good quality healthcare providers get to every segment of the population and

in every neighborhood” states Michael Mucci, CEO of The Physician Resource Group and co-founder of FQHCmd.

FQHCmd has also partnered with Sarah Wright, a respected attorney out of Seattle, WA who has experience working with all state health departments throughout the US. As a partner, she has been able to reduce fees to FQHCmd members and provide a free 30 minute consultation to all facilities.

With over 15,000 unique visitors each year visiting the physician network and well over 1000 CV’s per year from physicians looking for opportunities, FQHCmd is looking forward to helping FQHC’s throughout the US in securing outstanding healthcare providers.
